

How do I connect to a Telehealth meeting on my computer's internet web browser?

1. Go to <https://mlhealth.webex.com>
2. **Type** in the meeting number you were provided in the text box in the middle of the screen
3. **Press** the "Enter Key"
4. On the next screen **click** the down arrow to the right of the "Join Meeting" button
5. **Select** "Use web app", then **click** "Join Meeting"
6. On the next screen **type** in your Full Name and Email, then **click** "Next"
7. During these next steps you might be asked to allow access to your microphone or camera, please **click** "Allow" when prompted
8. The next screen should have a Green Join Button
9. **Click** the Video Camera icon so it isn't red to enable your webcam
10. **Click** the Microphone icon so it isn't red to Unmute your microphone
11. **Click** "Join Meeting"
12. You will see a screen saying "You can join the meeting after the host admits you"
13. Once the Nurse or Provider Admits you into the meeting your screen will change and you will be connected
14. The image below shows some icons you will see in the meeting menu; summaries are also listed below for the icons going left to right

- a. Mute and Unmute your microphone
- b. Disable or Enable your camera
- c. Share your screen
- d. Show the list of people in the meeting
- e. Open the chat window to chat with people in the meeting
- f. More settings
- g. Exit the meeting
